For your DIY sermon topic:

Write your name and your topic on the white board (in relatively small writing).

If someone else has already written your topic on the board, you may not choose it. No repeats.

Your topic should be a modern problem that you think your audience should try to change.

You will be “preaching” like Edwards. Consider your own personal SOAPSTone. Remember: No legalizing drugs, underage

drinking, or abortion. This could be a school issue, community issue, or global issue. What persuasive strategies will you implement in your sermon?
